

How to Use the Assistant Console to Handle Calls

You can use your mouse and keyboard to place, answer, transfer, end, and otherwise handle calls from the Assistant Console.

Note

Make sure the call you want to handle is selected (highlighted) on the console. Call control buttons and menu items appear grayed-out (inactive) if they are not relevant to the selected call.

To learn more, refer to the following call-handling topics:

- [How to Place a Call, page 3-2](#)
- [How to Answer a Call, page 3-3](#)
- [How to End a Call, page 3-3](#)
- [How to Put a Call on Hold, page 3-4](#)
- [How to Transfer a Call, page 3-5](#)
- [How to Set up a Conference Call, page 3-6](#)
- [How to Divert a Call to Another Number, page 3-7](#)
- [How to Send a Call to a Voice Messaging Service, page 3-9](#)

How to Place a Call

To place a call from the Assistant Console, choose any of the following options:

- Click the **Dial** call control button.
- Right-click on a phone line in the My Calls panel and choose **Dial** from the pop-up menu.
- Choose **Call > Dial** from the menu bar.
- Double-click a speed dial or directory number.
- Drag and drop a directory number into the My Calls panel.
- Use the associated keyboard shortcut.
- With the console open and active on your desktop, enter the phone number that you want to call using your keyboard, then press **Enter**. You can see the number that you are calling in the status bar along the bottom of the console.

If the Enter Number pop-up window appears, enter the phone number that you want to call and click **OK**.

Enter the number exactly as you would if you were placing the call from your Cisco Unified IP Phone.

Calls originated from Assistant Console use the first physical line of the Assistant phone.

How to Answer a Call

To answer a selected call, choose any of the following options:

- Click the **Answer** call control button.
- Double-click on a ringing call in the My Calls panel.
- Right-click on the call and choose **Answer** from the pop-up menu.
- Choose **Call > Answer** from the menu bar.
- Use the associated keyboard shortcut.

If the incoming call that you want to answer is not selected (highlighted), click the incoming call to select it before performing one of the above actions.

How to End a Call

To end a selected call, choose one of the following options:

- Click the **Hang Up** call control button.
- Right-click on the call and choose **Hang Up** from the pop-up menu.
- Choose **Call > Hang Up** from menu bar.
- Use the associated keyboard shortcut.

How to Put a Call on Hold

To put a selected call on hold, choose one of the following options:

- Click the **Hold** call control button.
- Double-click on the connected call.
- Right-click on the call and choose **Hold** from the pop-up menu
- Choose **Call > Hold** from the menu bar.
- Use the associated keyboard shortcut.

How to Remove a Call from Hold

To take a selected call off of hold, choose one of the following options:

- Click the **Resume** call control button.
- Double-click on the held call.
- Right-click on the call and choose **Resume** from the pop-up menu
- Choose **Call > Resume** from the menu bar.
- Use the associated keyboard shortcut.

How to Transfer a Call

There are three ways to transfer calls:

- **Transfer**—Immediately redirects the call without allowing you to speak to the transfer recipient (the person to whom you are transferring the call).
- **Consult transfer**—Redirects the call after first allowing you to speak to the transfer recipient.
- **Direct transfer**—Directly connects two calls (active calls and calls on hold).

Note You must answer a call before you can transfer it. After you transfer a call, you cannot retrieve it (unless the call is transferred back to you).

Transfer

To perform a transfer for a selected call, choose one of the following options:

- Click the **Transfer** call control button.
- Right-click on the call and choose **Transfer** from the pop-up menu.
- Choose **Call > Transfer** from the menu bar.
- Drag the call to a listing in the Speed Dials panel.
- Drag the call to a listing in the Directory panel.
- Use the associated keyboard shortcut.

Unless you drag the call to a listing in the Speed Dials or Directory panel, the Enter Number pop-up window appears. Enter the transfer recipient's phone number and click **OK**.

Consult Transfer

To perform a consult transfer for a selected call, choose one of the following options:

- Click the **Consult Transfer** call control button.
- Right-click on the call and choose **Consult Transfer** from the pop-up menu.
- Choose **Call > Consult Transfer** from the menu bar.

- In the Speed Dials or Directory panel, right-click on the listing to which you want to transfer the call, then choose **Consult Transfer** from the pop-up menu.
- Use the associated keyboard shortcut.

If the Enter Number pop-up window appears, enter the transfer recipient's phone number and click **OK**.

After you have spoken to the recipient, click the **Consult Transfer** button again to complete the transfer.

Note

You cannot complete a consult transfer while the phone is ringing or by using the drag-and-drop method. You must speak to the recipient to complete a consult transfer.

Direct Transfer

To perform a Direct transfer for a pair of calls, highlight the two calls and choose one of the following options:

- Click the **Direct Transfer** call control button.
- Right-click on the call and choose **Direct Transfer** from the pop-up menu.
- Choose **Call > Direct Transfer** from the menu bar.

How to Set up a Conference Call

There are two ways to set up a conference call:

- **Conference**—You initiate a call to add participants in a conference.
- **Join**— You connect active calls and calls on hold into a single conference call.

To add conference participants to an active and selected call, choose one of the following options:

- Click the **Conference** call control button.
- Right-click on the call and choose **Conference** from the pop-up menu.
- Choose **Call > Conference** from the menu bar.
- Right-click on a listing in the Speed Dials or Directory panels and choose **Conference** from the pop-up menu.
- Use the associated keyboard shortcut.

If the Enter Number pop-up window appears, enter the conference participant's phone number and click **OK**.

After you have spoken with the new conference participant, click the **Conference** button again to add the person to the call.

To set up a conference call using join, highlight the calls that you want in the conference and choose one of the following options:

- Click the **Join** call control button.
- Right-click on the call and choose **Join** from the pop-up menu.
- Choose **Call > Join** from the menu bar.

How to Divert a Call to Another Number

Use Immediate Divert to transfer a selected call to a pre-determined target number. You can divert a call that is ringing, connected, or on hold.

In proxy-line mode, the initial default target is the manager for whom the call was originally intended. In shared-line mode, there is no default target. However you can configure the target using any valid phone number or extension.

For details, refer to the following sections:

- [How to Use Immediate Divert, page 3-8](#)
- [How to Configure the Immediate Divert Target, page 3-8](#)

How to Use Immediate Divert

To divert a selected call to the Immediate Divert target, choose one of the following options:

- Click the **Immediate Divert** call control button.
- Right-click on the call and choose **Immediate Divert** from the pop-up menu.
- Choose **Call > Immediate Divert** from the menu bar.
- Use the associated keyboard shortcut.

Tips

- Unlike Transfer, which requires you to specify the target with each use, Immediate Divert sends calls to a single, pre-determined target number.
- You can divert a call that is ringing, connected, or on hold.
- You cannot divert a call that you have placed or received on one of your own phone lines (rather than on a manager proxy line).

Related Topic

- [How to Configure the Immediate Divert Target, page 3-8](#)

How to Configure the Immediate Divert Target

You can set your Immediate Divert target to be the manager for whom the call was originally intended or another directory number.

To view or change the target, choose **Edit > Immediate Divert** from the menu bar. The Immediate Divert Target pop-up window appears.

In shared-line mode, enter a phone number or office extension in the text box. Enter the number exactly as you would dial it from your office phone.

In proxy-line mode, you can choose to toggle between a Manager or Directory Number target. If you choose the Director Number option, enter a phone number or office extension. Enter the number exactly as you would dial it from your office phone.

Click **Save** to preserve your changes.

Tips

- In addition to configuring your own Immediate Divert target, you can do so for you manager. The manager's Divert target is distinct from yours. For instructions, see the [“How to Configure the Divert Target for a Manager” section on page 7-4](#).
- You can divert a call using your Cisco Unified IP Phone. Answer the call, then press the **ImmDiv** soft key on your Cisco Unified IP Phone to transfer the call to your Immediate Divert target.

How to Send a Call to a Voice Messaging Service

You can transfer a ringing or connected call that you are handling on behalf of a manager to that manager's voice messaging service.

To send a selected call to a voice messaging service, choose one of the following options:

- Click the **Transfer to Voice Mail** call control button.
- Right-click on the call and choose **Transfer to Voicemail** from the pop-up menu.
- Choose **Call > Transfer to Voicemail** from the menu bar.
- Use the associated keyboard shortcut.

Tips

- You can perform this task from your Cisco Unified IP Phone, as well. Answer the call, then press the **TrnsfVM** soft key on your Cisco Unified IP Phone to transfer the manager's call to his or her voice messaging service.

- This feature does not apply to calls that you have placed or received on one of your own phone lines. This feature only applies to calls on your manager's proxy line.
